\$2,000.

This afternoon in the Police Court they plead guilty to a charge of grand larceny, and were held for the grand jury. In discussing the matter of bail Mr. Clegett said that if what was charged was true the defendants were not young in the business, and the job was a skillful and daring one.

Judge Harper fixed the bail at \$3,000 in each case, in default of which they were committed.

LET'S TALK ABOUT THE WEATHER. The August Sun is Getting in Its Midsum-

EVERYBODY SUFFERING FROM THE INTENSE HEAT -NO HOPE OF AN IMMEDIATE CHANGE CAN BE GIVEN BY THE WEATHER BUREAU-BUT ONE CABINET OFFICER IN THE CITY.

If any misguided mortals living within the "Ten Miles Square" had come to the conclusion that they were going to enjoy a cool sum mer in 1891, they are not telling folks about their early beliefs to-day. Indeed, those amateur prophets who have all along been croaking about the cold, damp season began to shrink out of sight last Friday, when the August sun, having obtained a army was finally considered. Page 2 new supply of caloric, began to get in its midsummer fine work.

THE STOCK OF CALORIC LARGE. This new stock is probably large enough to last some weeks, unless the tremendous inroads that such days as today and yesterday and Saturday are making upon it should con-tinue. It is to be doubted if Washington The asphalt has resumed its customary August softness, and the palm-leaf fan fakir is smiling a broad, happy smile that suggests timely pro-fits. The finnel shirt has jumped to the front with a wicked spurt, and the white suit has come from the cleaners.

TOO HOT FOR COMFORT. Yet, with all these modern conveniences, the town don't like the business. It is too hot for comfort, even if a man should have nothing to do, and if he should do that clad in to do, and if he should do that clad in a pre-apple-ite costume. It is a day when the town would be very grateful if Providence would grant a whole holiday to all creation, so that it could seek some gigantic shower bath and cool off.

The weather bureau cannot help Providence

The weather bureau cannot help Providence in the least in this dilemma, not even by a ray of hope. It is a case where the bureau is simply as badly off as any other section of the town and it may be a consolation to that part of the city that shakes its fists at the diurnal weather map to have that the man who drow it is using his

TUESDAY, August 4, 1891...... 31,508 WEDNESDAY, August 5, 1891...... 31,679 THURSDAY, August 6, 1891..... 31,746 man who is constantly kicking about the weather and asking his neighbor if it is warm enough FRIDAY, August 7, 1891...... 31,597 SATURDAY, August 8, 1891...... 37,479 for him, who is smitten by a distracted Providence that has lost its patience. There has not been enough chance given yet, but a couple of more days will fix that all right.

At the Emergency Hospital the physicians have examined their stock of restoratives and remedies usually used in cases of sunstroke and have otherwise prepared for a run. Everything is ready.

Clerk Evening Star Newspaper Co. Subscribed and sworn to before me this tenth GOVERNMENT RECEIPTS TODAY. - Internal

The Report of the Board of Ordns Fortification Approved

A CONTRACT FOR THEM TO BE MADE WITH THE A Wave That is Sweeping Over the BETHLEHEM IRON COMPANY-THE PRICES DIF-FERENT FROM THE PROPOSALS, BUT THE COM-PANY WILL PROBABLY ACCEPT THE AMENDED

Gen. Grant, the acting secretary of war, this morning affixed his signature to the outside of a corpulent bundle of papers and thereby approved the proceedings of the recent meeting of the board of ordnance and fortifi-cation, held in New York, at which the matter of the bids for the 100 high-power guns for the

This practically settled the business and awarded the contract to the Bethlehem Iron Company at a rate somewhat different from those submitted in the bids. It is, of course, possible that the company may not deem it good policy to accept the contract at this al- It Rolls With Fatal Effect Over the City of tered price, but the chances are that it will take no such step, but that it will sign a contract with the government on the terms specified by the board. The law in this instance is somewhat unique, directing the Secretary of War to contract for

these 100 guns at prices which the board of ordnance and fortification might deem fair to the manufacturer and to the best interests of the government. Bids were opened July 13 and were received from the Bethlehem company, the Midvale company and the South Boston iron works.

There was a good deal of variety in the bids, owing to the different arrangements for the times of delivery, but the figures of the Bethlehem company, which has recently been successfully furnishing gun steel to the navy, were generally the lowest. THE OPINION OF THE BOARD

In the record approved this morning is the following statement: "The board is of the opinion, first, that the interest of the United States does not require that guns should be shakes its lists at the diurnal weather map to know that the man who drew it is using his handkerchief and his stock of profanity quite as often as anybody else.

FEW CASES OF SUNSTROKE.

Yet there have been remarkably few cases of sunstroke here. People have not yet had time to think how hot it is to be, in the proper frame of mind, for prostration by the heat. It is the man who is constantly kicking about the weather

Third. That considering the necessary appro priations for maintenance and operation of the gun factory, for additional forgings to keep it in operation, for carriages and emplacements for mortars and carriages therefor, and other necessary objects of descuse and armament, it is not for the interest of the United States to hasten the contract guns to a degree likely to cripple appropriations for these other necessary

"Fourth. That it is for the interest of the

The heat is particularly hard on the car horses, for it is an unfortunate natural paradox that the hotter it gets the less folks want to walk, and also the hotter it gets the less able are the horses to draw them.

The flags on the public buildings can't even be patriotic. There is so little air stirring that they hang with apologetic limpness, as if there were too many stars in the field to do more than wrap languidly around the staff and wiggle. Under no circumstances do they show enough interest in the state of the government to spread out into more than a badly distorted triangle, feebly pointing to the middle of the next block.

ONLY ONE CABINET OFFICER IN TOWN.

THE CONTRACT RECOMMENDED.

THE CONTRACT RECOMMENDED.

Commissioners decided to request the mayor of San Francisco to furnish them with a copy of the regulations in force in that city governing the street crossings of cable roads. Their attention was called to the matter by a gentleman of that city who was discussing the difficulties of treating that subject in that city on account of the great number of cable lines.

INFORMATION AS TO FLOWER MARKETS.

The Commissioners, through the Secretary of State, today requested that the representatives of the United States abroad be directed to furnish for the use of the Commissioners plans for the construction and management of the

"The board is further of the opinion that the chief of ordnance should be authorized to make agreement with the contractor so as to admit of such changes being made, from time to time, in the guns to be furnished as may be necessary to keep abreast of any improvements that may hereafter be attained in gun construction."

According to the proposals of the Bethlehem Company in schedule E the guns are to be fur-Company in schedule E the guns are to be furnished as follows: Eight-inch type gun in 730 days; the other guns in such regular periods that the twenty-fifth shall be delivered in 2,433 days. after notification of the acceptance of the type gun. Teninch type gun in 882 days; the others in regular periods so that the fiftieth shall be ready in 3,407 days after the acceptance of the type. Twelve inch-type gun in 1,095 days; the others in such regular periods that the twenty-fifth shall be completed in 3,194 days.

The difference between the bid accepted by the board and that submitted by the company lies wholly in the price to be paid for the three type guns.

INCREASE OF DEATHS.

Caused by the Excessively Hot Weather—Burial Permits.

One result of the hot weather is shown in the daily death list issued from the health office. The list issued today for the forty-eight hours ending at noon shows a large increase in the number of deaths from summer complaints, such as inflammation of the stomach, diarrhœa and cholera infantum. The deaths reported and burial permits issued were for the following:

White—Mary A. Nolan, 34 years, inflammation of the stomach, Mary T. Dougherty, 8 years, malarial fever; John Sulivan, 52 years, cholera morbus; Christian Rupert, 63 years, abscess of liver; Patrick Buckley, 49 years, phthisis pulmo.; John Bray, 76 years, phthisis pulmo.; John Bray, 76 years, phthisis pulmo.; Harry F. Truxel, 7 months, etero coenitis, James L. Caldwell, 2 years, exhaustion; Ella G. Carr, 11 years, rheumatism.

Colored—Arty Brown, 2 years, scrofula; Gertrude Thomas, 2 months, diarrhœa; Martha C. Steward, 32 years, exhaustion; Lizzie Corber, 1 month, cholers infantum; Burrell T. Hughes, 37 years, hemorrhage; Benj. Thornton, 1 month, enteritis; Hellen Prince 34 years.

HEAT EAST AND WEST

Country.

HIGH WINDS CAUSE SERIOUS DAMAGE

Efforts of Socialists to Control the Labor Congress.

WRECK OF A GRAVEL TRAIN.

THE HOT WAVE.

CHICAGO, August 10.—Corpses found among lumber heaps, women dropping dead while washing, men falling from ice wagons and drays were the thermometers that registered yesterday's heat. A dead man named Bertram was stumbled upon by John Slitt in the aftermoon, the sun having killed him and left him lying in a lumber yard. Mrs. Mary Dahl, aged thirty-eight, employed in a 31st street laundry, died from the effects of the heat. Among others who were prostrated, but who will probably recover, are Joseph Rick, Victor Watson and Powell Komm.

and Powell Komm.
St. Patt, Minn., August 10.—Last night's crop and weather reports from North Dakota indicate that at least a dozen counties of that state have been very seriously affected by the heat of the last four days. The wheat along the Manitoba border was just in the milk two weeks at least from harvest, and the intense protracted heat is said to have blistered and shriveled it to such an extent as to wine alerge part eled it to such an extent as to ruin a large part of it and render the remainder all off grade. The country west of Bismarck is said not to have suffered at all and the counties along the Red river in Minnesots and North Dakota but little. A slight shrinkage from blight and rust are ex-pected in Polk, Otter, Tail and Wilkin counties, Minn. RACINE, Wis., August 10.-Yesterday was the

warmest day known in Racine for many years, the thermometer registering 97 degrees in the shade. Several cases of sunstroke have been reported.

BLOOMINGTON, ILL., August 10.—Robert Curty,
a native of Switzerland, died yesterday from
sunstroke. The heat was greater yesterday
than that of any previous day of the summer,

HOTTEST IN TWENTY YEARS. New York, August 10.—This was the hottest August 10 in twenty years. At noon the thernometer was 89. The hot weather is causing Owing to the excessive humidity the weather today is oppressive and four deaths from the heat are already reported.

The thermometer at Hudnut's registered as

eaching 95 degrees.

HIGH WINDS PLAY HAVOC. Serious Damage Caused by Cyclones in th

ollows: 3 a.m., 76; 6 a.m., 75; 9 a.m., 80; 12

CHICAGO, August 10.—The high wind that ac companied the thunder storm yesterday after noon played havoc in the southern portion of the city. Large branches of trees were broken off, shrubbery scattered in every direction,

wind, accompanied by rain and hail, passed over Decatur county about noon yesterday. It was the worst storm ever known in that part of the state and the damage was great. Crops over a wide tract of territory are destroyed. Trees were prostrated and buildings destroyed.

So far as known no lives were lost.

Humestone, Corydon, Centerville, Ottumwa, Agency and other towns that lay in the cyclone's path suffered more or less. At Humestone cars were blown from the track of the Keokuk and Western road, the round house was demolished and houses unroofed. Fields of grain were prostrated, creating great loss. At Corydon the large court house was unroofed and the county offices damaged. The Methodist Church was demolished and the depot blown down. dist Church was demolished and the depot blown down.

At Ottumwa the gale swept the roofs from the stores of A. D. Moss, A. P. Peterson, the large warehouse of Harper, McIntire & Co., and the "Q" round house. The coal palace tower was twisted, the windows blown in and

tower was twisted, the windows blown in and the scaffolding thrown across telegraph and telephone wires, shutting off communication for a few hours. At Franklin Park, Agency and Batavia buildings were unroofed and large trees uprooted. No persons are reported killed, but the damage to crops and other property

EFFORTS OF THE SOCIALISTS.

LONDON, August 10.—The socialists are make ing great preparations to control the coming international labor congress. In London they are forming societies of those who had not been affiliated before, and they will send a large number of delegates, representing socialists pure and simple. The socialists are also active in the regular trades unions, and while a union cannot be controlled by the socialist element, they make a point to support for delegates men whose ideas come nearest their own. Notwithstanding all the efforts of the socialists, however, it is certain that England's representations in the congress will be overwhelm—

NASHVILLE, TENN., August 10.—The body of Miss Luiu Bowling was found Saturday morning in the woods near Bradyville, in Cannon county. The young-woman had been bitten in a dozen places by a rattlesnake, as was shown which was hadly swollen. Coiled up beside the body was the reptile which had caused the young woman's death. It was killed. It means the state of the socialists of the socialists of the socialists and socialists are also active in the regular trades unions, and while a union cannot be controlled by the socialist element, they make a point to support for delegates men whose ideas come nearest their own. Not-with the socialists, however, it is certain that England's representations in the congress will be overwhelm. however, it is certain that England's representations in the congress will be overwhelmingly trade union, without any preference for socialism. The English delegates will form, it is expected, about a third of the congress. Delegates are expected from every country in Europe, not excepting Russia, although no Russian workman is likely to go back to that country after he has attended the congress. In Spain some enthusiasm is reported in Barcelona relative to the congress, and there will be delegates from that city. They will probably represent a revolutionary sentiment, and be in line with the most advanced doctrines of a socialistic character. Altogether the congress will be the most interest-

vanced doctrines of a socialistic character. Altogether the congress will be the most interesting yet held.

A Berlin dispatch says that the social democracy is actively stirring for recruits and the members of the reserve are among the particular objects of their attention. The evidence of this has caused irritation and apprehension in the ministry of war, and orders have been issued to officers, down to regimental commanders, instructing them to see that their soldiers, whether in the reserve or not, are not permitted to read papers or books advocating so-

DERAILED THE CABOOSE.

New Haven, Conn., August 10.-Nine Italian

laborers were seriously injured, two fatally, in

a railroad collision near Branford on the Shore

line branch of the New York, New Haven and

Hartford railroad about 6 o'clock this morning.

A gravel train left New Haven about 5:30 a.m.

TWO CENTS.

Valentina, thirty-six, and Marco Sagelti, forty-seven.

The recovery of Peppiano and Fieri is doubtful. Bones are broken and they are injured internally. All were taken to the New Haven (GLOOMY FOR)

The Outlook for Manufactures as Affec

by the McKinley Tariff. LONDON, August 10.-The St. James Gazett takes a very gloomy view of the condition of British trade and today there appears in its manner upon the outlook for the manufacturing and other industries of Great Britain. It says: "Judging from the returns issued by the board of trade it looks as though we have already reached the end of good times. The great decline in the exports from Great Britain is undoubtedly due to the operation of the McKinley due to the operation of the McKinley and operation operation of the McKinley and operation operation operation of the operation of the manufacturing with the Chautauqua assembly, read: "We deem due to the Christian public, and especially due to the churches of all denominations in the city whose usual hour of services is 11 o'clock, to make the announcement that the managers of the Chautauqua assembly, read: "We deem due to the Christian public, and especially due to the churches of all denominations in the city whose usual hour of services is 11 o'clock, to make the announcement that the managers of the Chautauqua assembly, read: "We deem due to the Christian public, and especially due to the churches of all denominations in the city whose usual hour of services is 11 o'clock, to make the churches of all denominations in the city whose usual hour of services is 11 o'clock, to make the churches of all denominations in the city whose usual hour of services is 11 o'clock, to make the churches of all denominations in the city of the churches of all denominations in the city of the churches of all denominations in the city of the churches of all denominations in the city of the churches of all denominations in the city of the churches of all denominations in th due to the operation of the McKinley law in the United States. We have been told that that act would eventually prove a real misfortune to the United States, but its immediate object was to hit foreign manufacturers, especially those of Great Rritain and it is reliable avident that to hit foreign manufacturers, especially those of Great Britain, and it is plainly evident that this object has been attained."

THE TERROR OF A COUNTY. He is Captured by a Sheriff's Posse an

Landed in an Illinois Jail. HARVARD, ILL., August 10 .- Sheriff Udell, assisted by a posse of tried men, yesterday aft-A young man and his sweetheart were driving along the road, and the fellow jumped out from the field and took hold of the horses. He had in his hand a corn cutter, with which he attempted to kill the man in the buggy, but by striking the horse a vigorous blow the terrified youth succeeded in getting by his assailant, not, however, without his aiming a blow at the young lady in the buggy. Fortunated the succeeded of the house and after renewing an old feud between the two men, they came to blows and Mackleberry was shot through the head. Smith will be held to await requisition papers from New Jersey.

young lady in the buggy. Fortunately she escaped unharmed.

The sheriff then went to capture the fellow. He resisted and eight or ten shots were fired. The man was finally captured after being shot in the legs. He is now in Woodstock jail and his name is unknown. nis name is unknown. He is about thirty years of age, and on his person, besides the corn cutter, he had a num-

per of sections out of a reaper sickle. He A STEAMSHIP "CALLED DOWN."

The Salvadorian Authorities Seize the City of Panama for Sailing Without a Permit. inson Sawtelle, member of the Massachusetts bar and authoress, died this morning. New York, August 10.-A special dispatch wood avenue, where the frame dwelling of Fred Greiger was blown from its foundations and demolished. Mr. Greiger's left arm was broken in three places. Mrs. Greiger's nose and right arm were broken. The three children escaped unhurt.

A barn belonging to Jacob Walter on Central avenue was struck by lightning last night and totally destroyed. The contents were saved. The loss was \$3.000, fully insured.

These were in the form of laws making it illegal to employ natives at night. As the castom of the company has been to load the vessels at night so as to make quicker time it naturally resented this interference. The culmination of the friction between the government and the company was reached by the seizure of the City of Panama, which left La Union without taking a lot of goods which the authorities insisted on being shipped.

authorities insisted on being shipped.

Crofters Will Be Forced to Emigrate.
London, August 10.—The crofters of Skye, in the Scottish Highlands, do not take kindly to the idea of emigration. They claim that there is land enough for all and that they should have more of the forest, instead of being driven from their homes to make way for the grouse and the deer. In this position the Skye in Scotland and The Skye in the Sky in t from their homes to make way for the grous and the deer. In this position the Skye crot ters have the sympathy of the people generall in Scotland and Eugland. The government however, is in favor of the emigration scheme

and thousands of crofters on the islands and moors of Scotland will be offered a pressing in-vitation before long to seek new homes in Aus-tralia or Canada. Foul Play is Feared.

CHICAGO, August 10.—Harry Smith, a young man who has been leading a rather fast life in the city for a few weeks and who was known to always carry a large sum of money, went out on the lake Friday morning with some unknown companions. As his friends have since then seen nothing of him they very much fear that he has met with foul play. Smith is about twenty-two years of age and came here a few weeks ago from Pittsburg, where it is said he was the son of wealthy parents.

ounty. The young woman had been bitten in a dozen places by a rattles: ake, as was shown by as many discolored places on her body, which was hadly swellen. Coiled up beside the body was the reptile which had caused the young woman's death. It was killed. It measured five feet and had eighteen rattles and a button, and was one of the largest rattlesnakes ever seen in the county.

Cannot Sell His Estate.

London, August 10.—The judge to whom the Earl of Ailesbury made application for leave to sell his estate. Savernake Forest, to Lord Iveagh for £750,000, claiming that he was not in possession of sufficient funds to maintain the property, has refused to grant the application. He thinks that the sum offered for Savernake Forest is the full value of the property and that the sale of the property would be beneficial to the creditors of the Earl of Ailesbury, but he holds that due regard has not been paid to the persons who are entitled to the remainder. This decision in effect sustains the claim of those who opposed the application, that should the property be sold the only persons who would derive any benefit from the purchase money would be the usurers.

Corn and Wheat Crops Being Destroyed and Young Trees Injured. FINDLAY, ORIo, August 10.—The grambop pers are doing more damage in this part of the state now than they have for many years before. In many parts of the county they swarm in myriads and literally devour everything

before them. They have eaten up the cloverseed crop and are devouring the pasture to such an extent as to render the feed of stock a such an extent as to render the feed of stock a serious problem for the farmers. They are causing a serious annoyance in the wheat fields by eating the twine that binds the sheaves, causing the shocks to fall in confusion and making it difficult to handle. They are invading the corn fields and eating the leaves off the stalks and husks from the ears. Young trees are also being seriously endangered by the hoppers eating the leaves and new twigs. They will cause serious loss to the farmers in this and adjoining counties.

THINK SHE SHOT BERSELF.

Decision of the London Police in the Case of Miss Marie. London, August 10. - The police have made a close investigation into the case of Leonore In the caboose on the end of the train were fifty Italians. While crossing the main track near the Branford station a freight train bound for New London struck the caboose and threw it off the track. Nine of the fifty Italians were in Saturday, and have concluded that it is injured. not a case of attempted murder. All the facts tend to prove that the incoherent story told by the young lady when her condition was discovered, that a man standing on the foot board of the carriage had shot her,

Hearing Him Preach Topeka, Kan., August 10. - The Rev. T. DeWitt Talmage, who preached at Oakland Park yesterday morning, did not receive an enthusias

tic welcome from the local ministers. A card published in the morning papers signed by every minister in the city connected

A BRIDGE POLICEMAN ARRESTED.

He is Charged With Causing the Death of a

Paterson Blacksmith.

New York, August 10.-Policeman P. J. Smith of the Brooklyn bridge squad was arrested early this morning at his home, No. 731 7th avenue, charged with causing the death of ernoon captured a man south of Woodstock John Mackleberry, a blacksmith, of Paterson, who had been a terror to the people residing in that region. Farmers have complained of being accosted on the roadside and insulted, but

> ast evening Frank Coffey and several others quarreled over a pint of whisky. A free-for-all fight took place, in which eleven shots were fired. Homer McCullough, son of Hon. J. L. McCullough, was shot in the wrist, Frank Coffey was killed and Robert Stanley was cut so badly he will die. Some half a dozen tough characters took a band in the fight.

Mrs. Sawtelle, the Massachusetts Lawye Dead. AMHERST, N. H., August 10 .- Mrs. Lelia Rob-

Deceased was the first woman in l

NEWPORT, R. I., August 10.-Newport was enveloped in a dense fog last night. The steamer City of Newport, laden with excursionists from Providence, at a late hour struck a rock opposite Coasters' Harbor Island. The passengers were badly frightened. Captain Kelly, however, assured them that he could bring the boat to her wharf, which he did at about 1120 o'ciock. The steamer was leaking badly, but the extent of the damage cannot be stated now. Everything considered, it was a narrow escape. The passengers were delighted when the steamer finally reached her dock.

Adrianople for the purpose of training the men in the use of arms. This is rendered necessary, as the Turkish army is now mostly composed of new recruits who have seen no service. The veterans of Plevna and other fields are greatly outnumbered by the new men. The Turkish

London, August 10.-The situation of the Irish party does not seem to improve with Dillon and O'Brien out of prison. O'Brien maintains comparative seclusion, and Dillon arg, where it is said he who was willing at first to be aggressive against who was willing at first to be aggressive against
Parnell, has, it is said, almost concluded not to
take a share in the struggle between the two
factions. The reported scandal in the family
of an Irish M. P. opposed to Parnell will probably not come before the public. The first
wife, it is said, has accepted the offered compromise, and will maintain the reticence on
the subject which she has maintained for years.

SAN ANTONIO, TEL., August 10 .- A you Sutherland Springs the other day, found an iron pot partially buried in the ground, which was filled with gold doubloons valued at \$17,000. There has long been a tradition in the neighborhood that Santa Anna buried treasure there on his retreat after the battle of

Sax Francisco, August 10.—Judge Ogden Hoffman died early yesterday morning of paralysis of the heart. He had been ill for a

had a long interview with the Austrian bassador, who had been specially requests meet him. The interview has excited a g deal of interest, although nothing official been stated regarding it. The meeting, a ever, coupled with the sudden activity at 85 dan, is believed to indicate more active a tary preparations. The Austrian government of the post week sent the thirtee division of infantry (second corps) to Gal from Austria and has also supplied addition heavy guns to Cracow and other fortresses.
